HTML	CSS	JAVASCRIPT
GITHUB	Atlassian's	ADOBE XD/ FIGMA
PHP	MYSQL.	LARAVEL

Experience

JULY 2023 - PRESENT
DIIT IT SERVICES AND SOLUTION – *WEB DEVELOPER*

PROJECTS

EDUCATION ERP

I am developing an Education ERP web application using HTML and CSS. This technology duo enables me to create a user-friendly interface and seamless navigation. Leveraging these languages ensures the application's responsiveness and aesthetic appeal, contributing to an optimal user experience for educators, students, and administrators alike.

E-COMMERCE

HTML, CSS, and JavaScript, I HAVE COMPLETE a dynamic website that seamlessly integrates functionality and design. HTML structures the content, CSS stylizes it for a polished appearance, and JavaScript adds interactivity, enhancing user engagement. This combination ensures a visually appealing and responsive website for an enriched browsing experience.
